Multi-sensor Panoramic Dome Camera

4 x 2 MP Multi-sensor Panoramic Network IR Dome Camera

Wiz Mind

ArcticPro

WizMind Series devices offer Dahua Analytics+ functions for comprehensive, human-oriented analytic solutions. WizMind Series products are ideal for complex applications with demanding requirements that need advanced analytic capabilities.

System Overview

The multi-sensor camera provides added flexibility for capturing wide area video surveillance. With four (4) 2 MP sensors working in tandem to create a comprehensive 180° overview, the camera can replace multiple single-sensor cameras providing a higher return on investment. The multi-sensor camera features contrast, backlight compensation, white balance, and resolution control to create a crystal-clear image even in the most challenging lighting conditions. Plus, with IP67 and IK10 ratings, the camera is ready for any application.

Functions

Starlight Technology

For challenging low-light applications, Dahua's Starlight Ultra-low Light Technology offers best-in-class light sensitivity, capturing details in low light down to 0.002 lux. The camera uses a set of optical features to balance light throughout the scene, resulting in clear images in dark environments.

Crowd and Vehicle Density

The multi-sensor camera offers advanced crowd and vehicle counting functions to send alerts when the number of people or vehicles in a defined area exceed a set threshold. These functions are useful to determine if a crowd is getting too large, if traffic congestion is increasing, and it a parking lot is reaching capacity.

- Four (4) 1/2.8-in. 2 MP Progressive Scan CMOS Imagers
- Triple-stream Encoding
- Smart H.265+ and Smart H.264+ Dual Codec
- Maximum Resolution: 4096 x 1800 at 30 fps
- Starlight Technology for Ultra-low Light Sensitivity
- Crowd and Vehicle Density
- Maximum IR LED Distance 30 m (98 ft)
- ArcticPro Series Camera - Operational down to −40° C (−40° F)
- IP67 Ingress Protection and IK10 Vandal Resistance
- Five-year Warranty*

ArcticPro

The Dahua ArcticPro Series of extreme-environment cameras combine temperature-tolerant components with a waterproof enclosure to ensure flawless operation in temperatures as low as −40°F (−40°C) without the need for an internal heater. The lack of a heater reduces the camera's power consumption and saves operating costs. For applications that demand high-resolution video with advanced features in extremely cold environments, the Dahua ArcticPro Series offers a camera to satisfy the most demanding requirements.

True Day/Night

A day/night mechanical IR cut filter makes this camera ideal for applications with fluctuating lighting conditions, delivering color images during the day and automatically switching to monochrome as the scene darkens.

Smart IR

With IR illumination, detailed images can be captured in low light or total darkness. The camera's Smart IR technology adjusts the intensity of the camera's infrared LEDs to compensate for the distance of an object. Smart IR technology prevents IR LEDs from whitening out images as they come closer to the camera. The camera's integrated infrared illumination provides high-performance in extreme low-light environments up to 30 m (98 ft).

Environmental

The camera complies with the IK10 impact rating making it capable of withstanding the equivalent of 5 kg (11.02 lbs) of force dropped from a height of 40 cm (15.75 in.). Subjected and certified to rigorous dust and water immersion tests, the IP67 rating makes it suitable for demanding outdoor applications.

Technical Specification

Camera

Image Sensor	Four (4) 1/2.8-in. 2 MP CMOS Sensors
Effective Pixels	4096(H) x 1800(V)
RAM/ROM	2 GB / 4 GB
Scanning System	Progressive
Electronic Shutter Speed	Auto, Manual: 1/3 s to 1/100,000 s
Minimum Illumination	Color: 0.002 lux at F1.6 0 lux at F1.6 with IR on
S/N Ratio	More than 56 dB
IR Distance	Up to 30.0 m (98.43 ft)
IR On/Off Control	Auto, Manual
IR LEDs	Six (6)

Lens

Lens Type	Fixed-focal
Mount Type	M12
Focal Length	2.8 mm
Max. Aperture	F1.6

1. The DORI distance is a measure of the general proximity for a specific classification to help pinpoint the right camera for your needs. The DORI distance is calculated based on sensor specifications and lab test results according to EN 62676-4, the standard that defines the criteria for the Detect, Observe, Recognize and Identify classifications.

White Balance	Auto, Natural, Street Lamp, Outdoor, Manual, Regional Custom
Gain Control	Auto, Gain Priority, Shutter Priority, Manual
Noise Reduction	3D DNR
Motion Detection	Off, On (4 Zone, Rectangle)

Analytics+ Functions

Crowd Density[2]	Detects crowd density and displays it on a heat map, Triggers an alarm when the crowd quantity or density exceeds a set threshold in selected area. • Detects up to 1024 people • Apply to eight (8) regions • Detection radius up to 30 m (98.43 ft)
Vehicle Density[2]	Analyses the scene for the number of vehicles and vehicle congestion selected lanes. • Offers Traffic Congestion and Upper Parking Limit functions • Minimum pixel requirement: ≥ 80 pixels • Apply to 16 regions • Detection radius up to 80 m (262.47 ft)

2. The Crowd Density and Vehicle Density functions are available on the camera, however the functions have not been fully tested with Dahua NVRs and with the DSS and IVSS video management software.

Intelligent Video System Functions

IVS triggers an alarm and takes a defined action for the following events:

Standard Features	• Tampering with the camera. • Error writing to an onboard Micro SD card. • Error sending or receiving data over the network. • Unauthorized access to the camera. • IP Address Conflict
Premium Features	
Tripwire	A target crosses a user-defined line.
Intrusion	A target enters or exits a defined perimeter.
