★ STAR-LIGHT 960H Indoor Dome IR Camera D3563DIR

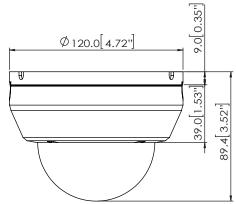

Summary

Our Starlight 960H Series is a combination of our powerful Starlight Super-Low Light technology and a 960H CCD image sensor. This combination allows our cameras to achieve higher resolution and higher sensitivity to light than conventional CCTV cameras. Our Star-Light technology offers a slow shutter feature that increases the length of time the shutter remains open to collect additional ambient light, illuminating typically dark environments. Together with the 960H CCD sensor, the camera produces a clear horizontal resolution of up to 720 TV lines.
