Surface Mount

Voice or Video calling and access management from anywhere with the DKS Cloud

- The 2112 eVolve is our most advanced and versatile Video Entry System, allowing the homeowner or system users the ability to grant entry to guests even from thousands of miles away.
- The 2112 features Video or Voice calls in a broadcast mode for up to 4 phones simultaneously when the call button is pushed.
- The 2112 control dashboard is browser based, so all that's needed is an internet connection and a web browser to access Entry System settings such as users, access time zones, entry codes and more.
- Residents can quickly grant guests access from their home phone or smartphone.
- Able to control up to three entry points, the 2112 eVolve operates with an internet connection or an optional cellular connection.

Internet Connection - Wired or Wireless

NEW eVolve Technology Inside

Wireless Cellular Connection Option
Used if an internet connection is not possible.

Internet Connection
Use your existing internet connection for easy Plug & Play connectivity

Live Video Streaming
Users with the DKS video calling app downloaded to their smartphone are able to communicate with guests via video stream

Voice Communication
Talk to guests at a front door or gate from any telephone in the home, or mobile phone

Broadcast Calling
Access requests from the call button can ring up to 4 phones simultaneously.

Control from Any Device, Anywhere
Administrators can access system settings from any browser via the cloud.

2112 eVolve VIDEO ENTRY SYSTEM

2112 eVolve Surface Mount

2112 eVolve Flush Mount
