28" Structured Media Enclosure and Flush-Mount Cover, Metal, White

28" Structured Media Enclosures terminate home-run wires from wall outlets and provide a distribution point for voice, data, and video wiring in a residence or multiple dwelling unit. These enclosures are ideal for new installations or retrofits. They can be surface mounted or recessed by mounting between wall studs (on 16-inch centers), using provided wood screws for a clean and professionally finished appearance.

Technical Information

Dimensional Data
Depth : 3.85 Inch
Height : 28 Inch
Width : 14.38 Inch

Material Specifications
Color : White
Enclosure Material : Steel
Gauge of Steel : 18 Gauge
Paint Finish : Powder-Coated

Mechanical Specifications
Knockouts : Multiple up to 2 Inch
Max. Module Capacity : 8
Notes : Module count dependant of the type used.

Product Features
Color : White

UL Listed : Fire and Burglary

Features and Benefits

- Cutout pattern in bottom accommodates single gang or full width

- AC power modules and Mini and Universal DC power supplies

- Mounting slots on the enclosure simplify adjustment for different sheetrock depths

- Sheetrock depth marks (1/2-inch, 5/8-inch and 3/4-inch) on the enclosure simplify alignment

- Lance slots provide clean cable management within the enclosure

- Product may be surface or recess mounted

- Ships with a cardboard insert to help prevent drywall debris or paint overspray from entering the enclosure during the rough-in stage of installation

- Keyhole slots on the cover allow for easier installation

- Multiple knockouts on the top support conduit up to two inches in diameter and facilitate cable routing and entry

- Self-healing foam grommets protect cable bundles

- Holds quarter-, half-, and full-width expansion modules, with the ability to mount most modules vertically or horizontally

- Three enclosure cover types are available: Flush-Mount Cover, Economy Hinged
