

## 10-Port 2.5GBASE-T Web Smart Switch with 2 x 10G SFP+ Slots

TEG-30102WS (v1.0R)

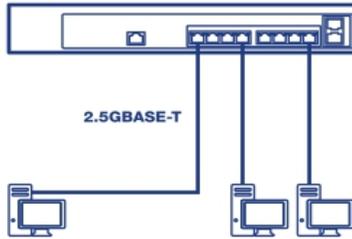

- 8 x 2.5GBASE-T RJ-45 ports with 2 x 10G SFP+ slots
- 2.5GBASE-T supports up to 2.5Gbps connection speeds
- Compatible with existing Cat5e or better cabling
- Easy to use web-based management interface
- Supports up to 32 IPv4/IPv6 static routes
- Supports LACP, VLAN, and IGMP Snooping
- IEEE 802.1p QoS with queue scheduling support
- Per port MAC restriction and dynamic ARP inspection
- Bandwidth control per port
- 80Gbps switching capacity
- 1U rack mountable (brackets included)

TRENDnet's 10-Port 2.5GBASE-T Web Smart Switch with eight 2.5GBASE-T ports and two 10G SFP+ slots, model TEG-30102WS, delivers advanced management features with an 80Gbps switching capacity. The TEG-30102WS is equipped with 2.5GBASE-T RJ-45 ports that provide higher gigabit speeds capable of up to 2.5Gbps over existing Cat5e or better cabling. This rack mountable IPv6 ready switch comes with an intuitive web-based interface. Advanced traffic management controls include IP routing, VLAN, QoS, access controls, link aggregation, troubleshooting, and SNMP monitoring, making this a powerful solution for SMB networks.

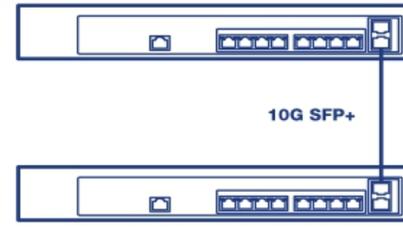

### Web Smart Management

Provides an easy to use web-based GUI management interface for advanced traffic management controls, IP routing, VLAN, QoS, access controls, link aggregation, troubleshooting, SNMP monitoring, per port MAC restriction, and dynamic ARP inspection.

### 2.5GBASE-T Ports

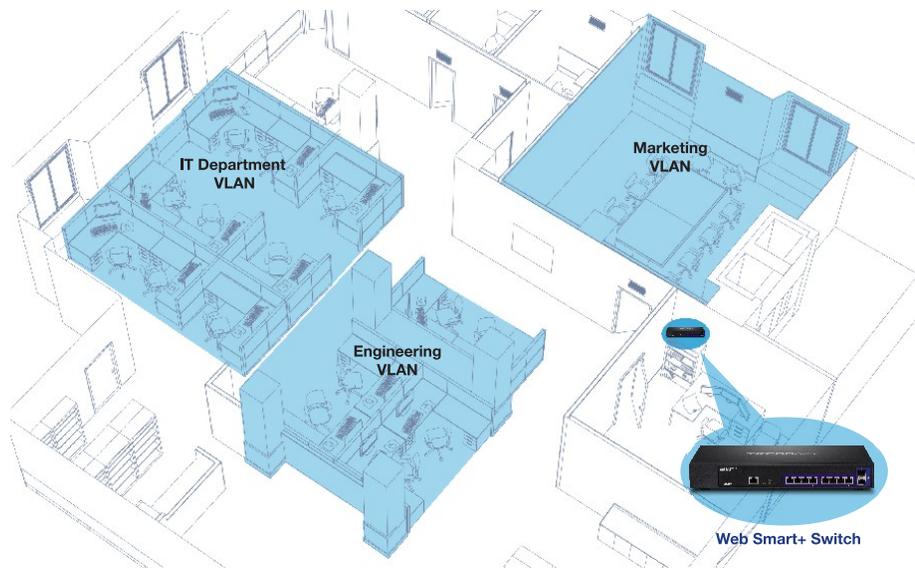

Equipped with eight 2.5GBASE-T RJ-45 ports that provide higher gigabit speeds capable of up to 2.5Gbps over existing Cat5e or better cabling.

### 10G SFP+ Slots

Offers two 10G SFP+ slots for high-speed network connections providing a cost-effective solution in adding 10G link capability to an SMB network.

## Networking Solution

### Hardware Design

Provides 8 x 2.5GBASE-T ports and 2 x 10G SFP+ slots for high-speed network connections, and 1U rack mount design.

### 2.5GBASE-T Technology

Connect 2.5GBASE-T supported devices at 2.5Gbps for increased throughput over existing Cat5e or better cabling.

### Smart Fans

Smart fans save energy by auto-adjusting the fan speed and use based on cooling needs.

### IP Routing

Supports up to 32 IPv4/IPv6 static routes.

### Network Management

A broad range of network configurations are supported by: link aggregation, VLAN, bandwidth controls, IGMP, loopback detection, port mirroring, QoS, per port MAC restriction, and dynamic ARP inspection.

### Troubleshooting

Traffic statistics and a convenient cable diagnostic test aid in network troubleshooting.

## Specifications

#### PACKAGE CONTENTS

- TEG-30102WS
- Quick Installation Guide
- Power cord
- RJ-45 to RS-232 console cable (1m / 3.28 ft.)
- Rackmount kit
