

IC-SUB-8

This is our newest in-ceiling subwoofer that fits in our standard 8" cut-out and is perfect to add low-end range to any multi-room audio zone. You can send 150 watts of uninterrupted power, while it blends in effortlessly to its install environment thanks to our Ghost™ style grill. Use our new pre-construction brackets and our patent-pending Quick Connect™ technology to make your installs quick and easy. There are also traditional compression fit binding posts if needed.
