

Vault Series

The Vault Series has many features to better assist installers and end-users alike. It was designed with an integrated cooling unit at the top of the rack, a 1,000 lb. weight limit providing the ability to include all equipment within the rack, plenty of punch-outs and space for power supplies, and the best wire management system TruAudio has ever produced. All of this comes at a competitive price point, making Vault versatile, economical, and perfect for your next install.

COMPLETE FRAMES

Frame includes top, bottom (with casters), side, and rear panels, front door, fans and cable management
